

BOIL ADVISORY

Ward Two Water District
PWS ID #1063039
Livingston Parish, Louisiana
Date: 04/02/2024

For Immediate Release

Ward Two Water District experienced some equipment failure at one of the well sites in Watson, Louisiana which caused insufficient chlorine residuals per the Louisiana Department of Health Regulations and Guidelines. Ward Two Water District along with Louisiana Department of Health officials are working diligently to resolve this issue as soon as possible.

We have no reason to believe the water quality has been compromised. As an abundance of caution, Ward Two Water District is issuing a BOIL ADVISORY that is to be in effect until Louisiana Department of Health confirms the water is safe to drink.

This Advisory is limited to customers north of Watson on LA Highway 16 ONLY from Mandy's Primary Care (35701 LA Highway 16) to the intersection of LA Highway 16 and Fore Road (LA-1022).

It is recommended that all consumers disinfect their water before consuming it (including fountain drinks), making ice, brushing teeth, or using it for food preparation or rinsing of foods by the following means:

Boil water for one (1) full minute in a clean container. The one minute starts after the water has been brought to a rolling boil. The flat taste can be eliminated by shaking the water in a clean bottle or pouring it from one clean container to another.

Again, please be sure to disinfect your own water prior to consumption until you have been advised otherwise.

Upon notification from the Louisiana Department of Health's State Regional Laboratory that the samples collected from our water supply have been found to be safe, the State Health Department will notify the water supply of the sample results. Upon such notification, the Ward Two Water District will then rescind the Boil Advisory and notify its customers that the water has been found to be safe.

If you have any questions or need additional information please call (225) 665-5188. Sorry for any inconvenience this may cause.

Thank you,
Ward Two Water District
