Customer Signature

Thank You,
Ward Two Water District

I understand that if the water meter is locked or has to be installed, Ward 2 Water District's Maintenance Department will NOT turn the water meter on UNLESS they make contact with someone on my property that is an adult 18 years or older. I also understand that this is for the safety of my property in the event that anything is to be turned on in or outside of the home and could cause damage to my property.

Note: You may turn the meter valve counter clockwise if the pin lock is out.
You may need a pair of pliers to turn the valve.
